WE ARE ENERGISING GLOBAL SOLUTIONS

A world in transition needs global perspectives. It needs disruptors and pioneers; those willing to embrace agility and creativity. Those who can drive tangible, inclusive progress. A platform that convenes new perspectives to deliver the energy solutions that our society needs.

At dmg energy, we are dedicated to this very ambition.

It's our mission to mobilise the collective power of diverse viewpoints, innovative thinking, and collaborative action to help reimagine the world's energy landscape.

From four continents across the globe, we connect the world's foremost decision-makers, thought-leaders and innovators to help address the most pressing issues facing our planet. By inspiring ideas with the potential to revolutionise industries, our global footprint empowers leaders, policymakers, experts in science and academia, start-up founders and investors to tackle global challenges.

dmg energy is a creative and entrepreneurial company, with unique partnerships from across the energy value chain and a diverse range of sectors. We respond to the new and emerging trends shaping existing and evolving industries, while embracing agility to deliver real progress.

With 40 energy events globally, we aim to play a central role in accelerating and delivering a secure, resilient and sustainable energy future for people and the planet, creating platforms where the best minds can come together to share knowledge, challenge norms and catalyse change.

I invite you to join us as we reimagine the world in transition before us.

DMGT

dmg events | A **SUBSIDIARY OF DMGT**

DMGT manages a diverse, multinational portfolio of companies, with total revenues of around £1bn, that provide businesses and consumers with compelling information, analysis, insight, events, news and entertainment.

On the consumer side, with origins as one of the UK's most successful newspaper companies, we now have a large and engaged audience in the UK and globally. As the digital world changed the face of media we extended the Daily Mail brand online, where it is one of the world's most popular newspaper websites.

Our B2B Information Services businesses supply high-value data, analytics and insights for the Property Information sector whilst our Events & Exhibitions business operates highly successful large-scale events.

Our venture capital business, dmgt ventures, holds minority stakes in early-stage businesses and focuses particularly on disruptive consumer media propositions.

dmg::events

dmg events | A **TRUSTED NAME IN EVENT ORGANISING**

dmg events is a global exhibitions and publishing company, established in 1989 and operating with 13 offices around the world. With a vast portfolio of over 80 exhibitions annually, we attract more than 1 million visitors, positioning us as one of the leading players in the industry. This global portfolio works closely with key stakeholders across the industry to facilitate pragmatic dialogue, serving as platforms for the latest discussions at the forefront of change.

Over recent years dmgt events has significantly expanded operations to achieve impressive growth in emerging and mature markets. With new events continually being launched to adapt to changing market conditions, evolving with the industry, live events remain a focal point, providing a mix of exhibitions, conferences, certified workshops, technical seminars, clubs and leadership roundtables.

dmgevents.com

A photograph of a dense forest of tall, thin trees, likely pines or spruces, with a dirt path winding through them. The trees are tall and slender, with light-colored bark. The ground is covered in low-lying vegetation and moss. The lighting is soft, suggesting a late afternoon or early morning setting. The text "OUR COMMITMENT TO SUSTAINABLE EVENTS" is overlaid in white, bold, sans-serif font in the upper left quadrant of the image.

OUR COMMITMENT TO SUSTAINABLE EVENTS

dmg events strives to be a global leader in sustainable event management, reducing our environmental footprint while delivering exceptional experiences for our customers.

We are committed to creating a sustainable future for our planet and our communities and recognise the impact our events have on the environment.

Dedicated to reducing our carbon footprint and promoting sustainable practices across all aspects of our business, we are continuously seeking innovative ways to reduce waste, conserve energy and minimise our use of natural resources. We work closely with our suppliers, partners and customers to promote sustainable practices and raise awareness about the importance of sustainability in the events industry.

Our commitment to sustainability extends beyond the physical impact of our events. In keeping with the ESG (environmental, social and governance) framework, we believe that sustainability also means promoting diversity, equity, and inclusion in all our operations and practices. We are committed to supporting our employees, customers, and communities and strive to make a positive impact on the world around us.

Together, we can continue to make a positive impact and work towards a more sustainable and equitable future.

NET ZERO CARBON EVENTS

dmg events has signed the “Net Zero Carbon Events” pledge, a joint commitment across the events and meetings industry to achieve the targets laid out in the Paris Climate Accord. By signing the pledge, dmgevents is committing to publish our pathway to achieve net zero by 2050 at the latest, with an interim target in line with the Paris Agreement’s requirement to reduce global GHG emissions by 50% by 2030.

World LNG Summit & Awards 11

Lisbon Energy Summit & Exhibition 12

Global Energy Transition Congress & Exhibition 13

Ministers, CEOs, and business leaders attending the Gastech Opening Ceremony

World LNG Summit & Awards

9 - 12 December 2024 | Berlin, Germany

LNG continues to deliver reliable, cleaner, and more efficient energy solutions to meet the world's growing energy demands. Its significant role in the energy mix and as a bridging fuel presents the unique opportunity for lower emissions, enhanced market resilience, and reduced reliance on coal.

The World LNG Summit & Awards is the meeting place for the most senior LNG leaders from across the global value chain to define the critical role LNG and gas will play in delivering energy security, economic stability, and the ongoing drive for decarbonisation.

The conference serves as a catalyst to explore the latest developments in geopolitics and energy security, the decarbonisation of LNG and the globally traded LNG market.

2 - 4 June 2025 | Lisbon, Portugal

Endorsed by the Ministry of Environment and Energy, the Lisbon Energy Summit & Exhibition 2025, the Iberian region's leading energy transition event, will welcome over 2,000 visitors to FIL, Lisbon, Portugal, a world leader in new energies and technological innovation, on 2 – 4 June 2025.

Under the theme “Creating Tomorrow’s Energy System Today”, Ministers, policymakers, project developers, investors and innovators will engage at a 3-day high-level strategic conference sharing insights into transitioning the E.U.’s energy system to one based on renewables and in line with the REPowerEU initiatives. Showcased across the exhibition’s hydrogen & decarbonisation, solar and innovation zones are the products and projects that will deliver this cleaner, greener energy system.

**Global Energy
Transition Congress
and Exhibition**

July 2025 | Milan, Italy

GET is the only global conference and exhibition connecting the low-carbon energy and industrial eco-systems to accelerate the energy transition and deliver measurable change. GET will bring together ministers involved in the energy transition, CEOs from the energy, hard-to-abate and finance sectors as well as start-ups. This is a crucial meeting place for all industries to intersect and create transformative partnerships which can bring about real change.

GET provides a unique global platform to convene leaders from energy, low-carbon solutions, utilities, cement, steel, mining, heavy-duty transport and shipping, chemicals, finance, start-ups and more.

The conference will deliver high level discussions on how to approach the new industrial age ensuring that tough questions are asked and are addressed by a diverse range of stakeholders. The exhibition provides organisations the opportunity to demonstrate successful decarbonisation projects as well as the occasion to showcase key decarbonisation technologies and business models that have been developed to support the energy transition.

Building on the success of the 2024 edition, inaugurated by the Hon'ble Prime Minister of India Shri Narendra Modi, India Energy Week 2025 returns from 11 - 14 February 2025 in New Delhi, India.

Held under the patronage of the Ministry of Petroleum & Natural Gas, Government of India, and officially supported by the Federation of Indian Petroleum Industry (FIP), India Energy Week 2025 will be India's largest and only all-encompassing energy exhibition and conference, bringing together the entire energy value chain, and will serve as a catalyst for India's energy transition goals.

Welcoming over 75,000 attendees, 700 exhibitors, 400 speakers and 5,500+ delegates, from over 120 countries, India Energy Week will be a truly global gathering, convening policymakers, business leaders and energy pioneers to collaborate, discover new opportunities and strengthen partnerships.

7 – 9 May 2025 | Bangkok, Thailand

Taking place from 7-9 May 2025 in Bangkok, this will be a pivotal, world class event dedicated to reshaping Southeast Asia's energy landscape. The Future Energy Asia and Future Mobility Asia exhibitions and conferences gathers global experts to address sustainable energy solutions under the theme "Powering Asia: Enabling economic growth, business opportunities and accessible, affordable energy for all."

This congress serves as the annual platform for showcasing technological advancements, facilitating strategic partnerships, and exploring investment opportunities that promote economic prosperity and energy security across the region.

Attendees, including policymakers, industry leaders, investors, and innovators, will engage in meaningful discussions, experience cutting-edge exhibitions, and develop essential partnerships for a pragmatic, just energy transition.

**POWER &
UTILITIES
INDIA**
SUMMIT AND EXHIBITION

May 2025 | New Delhi, India

The India Power, Utilities and Water Summit and Exhibition provides a premier platform for businesses in these sectors to showcase groundbreaking innovations, products, and services. This event is designed to forge valuable connections across the utilities, power, and water value chains, facilitating the exchange of ideas and collaboration among industry leaders.

India's utilities, power, and water sectors are pivotal to its economic development and social well-being, playing a crucial role in supporting its rapid urbanisation and industrialisation.

India is on the cusp of a transformative energy transition. As of May 2023, the country's total installed power generation capacity stood at 417,668 MW, with a significant contribution from renewable energy sources. Fossil fuels account for 56.8% of the installed capacity. However, renewable energy, including hydro, wind, and solar, now constitutes 43% of the total installed capacity, reflecting India's ambitious push towards sustainable energy.

► powerandutilitiesindia.com

TRANSPORT & INFRASTRUCTURE INDIA SUMMIT AND EXHIBITION

May 2025 | New Delhi, India

The India Transport and Infrastructure Summit and Exhibition addresses the significant opportunities arising from India's national development plans, which include renovation, modernisation and expansion of its transportation and infrastructure sectors, including roads, aviation, railways, shipping, urban development, freight and logistics, and more.

Be part of the India Transport and Infrastructure Summit and Exhibition to capitalise on the massive investment and growth potential of the Indian transportation and infrastructure sectors while building your business and networks.

► infrastructure-india.com

18 - 20 June 2025 | Tokyo, Japan

The Japan Energy Summit & Exhibition, taking place from 18 - 20 June 2025 in Tokyo, brings together key participants from across the global energy ecosystem to actively shape the future of energy, propel sustainable energy access, and redefine the global energy narrative.

By fostering collaboration within the energy system and across governments and sectors, championing advanced climate technologies, and prioritising robust energy security, Japan secures its position as an architect of the global transition to the new multifaceted energy system.

Leading the region in securing a carbon-neutral and stable energy future will require Japan's commitment to new partnerships and alliances, critical investment in energy transition innovation and infrastructure, and enabling effective new policy frameworks.

World Utilities Congress

16 – 18 September 2024 | Abu Dhabi, UAE

In a world where electricity and water play critical roles, the power and water utilities industry faces numerous significant challenges. As we navigate the complexities of a rapidly changing landscape, it is essential to confront these obstacles directly and pave the way towards a resilient and sustainable future.

The World Utilities Congress, scheduled to take place in Abu Dhabi from 16 - 18 September 2024, serves as an international platform that brings together global energy leaders, policymakers, innovators, and industry professionals from across the power & water utilities value chain to discuss the major trends and challenges shaping the industry as utilities worldwide work to deliver secure, sustainable, and affordable energy.

This congress will provide a vital platform for the sector to engage in discussions about the role and pace of decarbonisation in the utility industry's future. It will also showcase the latest innovations and solutions aimed at establishing a renewable utilities sector.

► worldutilitiescongress.com

16 – 18 September 2024 | Abu Dhabi, UAE

Building on 16 years of success, the Arab Water Forum will gather visionaries and pioneers from across the water value chain to advance the solutions that matter most to ensure access to clean water and sanitation for all.

Taking place in Abu Dhabi, the three-day event provides a platform for industry leaders to fast-track collaborative efforts to meet water security goals and identify the most promising innovation and growth opportunities.

In collaboration with the League of Arab States and the Ministry of Water Resources and Irrigation of Egypt, the Arab Water Forum is a crucial platform, facilitating collaborative dialogue and strategic partnerships that address the significant challenges of water scarcity and climate change in the Arab region.

ADIPEC

4 - 7 November 2024 | Abu Dhabi, UAE

Taking place on 4-7 November 2024 in Abu Dhabi, ADIPEC 2024 will explore the power of energy in accelerating an economy-wide transformation that delivers for people, the planet and our collective prosperity.

Hosted by ADNOC, ADIPEC builds on its 40-year legacy, creating a unified, inclusive platform for the entire energy ecosystem. Over four days, the event will convene communities, nations and industries, the world's largest energy producers and consumers, as well as enablers in government, finance and technology to find collective solutions towards affordable, secure, and sustainable energy for all.

The event takes place days before COP29, presenting a crucial opportunity for the energy industry to demonstrate collaborative progress on commitments made and targets set as part of the UAE Consensus at COP28.

Across more than 350 conference sessions featuring over 1,600 diverse voices, and across its 16 exhibition halls, ADIPEC will advance tangible action and build the critical cross-sector partnerships needed to mobilise finance and investment, fast-track innovation and accelerate technology adoption, and advance the decarbonisation of heavy industries.

▶ adipec.com

Decarbonisation

4 - 7 November 2024 | Abu Dhabi, UAE

The dedicated Decarbonisation area at ADIPEC can spark the disruptive thinking needed to deliver tangible, high-impact solutions for energy sustainability and decarbonisation, bridging the gap between finance and innovation to unlock unprecedented new investments in our collective energy future.

By spotlighting transformational energy solutions, from opportunities in new energy adoption, storage, carbon capture, infrastructure and utilities, to the decarbonisation of heavy industries and advances in methane emissions reduction, the zone provides a platform for businesses working to tackle these critical challenges with new pathways to scale and grow.

► adipec.com/decarbonisation

Digitalisation

4 - 7 November 2024 | Abu Dhabi, UAE

Digital technologies will form the foundations of an energy system that can enable a higher-growth, lower-carbon future. The Digitalisation area at ADIPEC will advocate for the accelerated adoption and integration of transformational digital solutions like smart grids, drone and satellite detection technologies, and shared mobility solutions.

By creating a space to share new ideas, solutions and best practices, the zone seeks to demonstrate how industry leaders and innovators can come together to create the energy system of the future, today.

► adipec.com/digitalisation

Maritime & Logistics

4 - 7 November 2024 | Abu Dhabi, UAE

Moving from consensus to action on the challenge of decarbonising the global maritime and logistics industries at scale requires continued progress in the development and roll-out of supportive policies and cross-sector strategies.

The dedicated Maritime & Logistics area at ADIPEC is a meeting place for the energy and maritime sectors to come together to explore emissions reduction solutions that can advance the world's climate ambitions. It will bring together industry leaders, regulators and decision makers from the global maritime and logistics supply chain, alongside leading technological and digital experts to accelerate tangible, collective progress and advance the unprecedented commitments set out in the UAE Consensus.

Gastech is the world's leading forum dedicated to delivering a more sustainable energy future by bringing together the collective knowledge and expertise of strategic visionaries and technical experts to create pathways towards global energy security and a vision for lasting climate impact.

The 4-day global gathering comes at a critical time for the world's leading players to collaborate, transform and advance the global energy system and the new industrial age.

This year, Gastech is focused on taking decisive action to accelerate a shared, global vision for the energy industry in Houston, a city famed for solving some of the world's toughest energy challenges.

Purposeful energy investment for tomorrow

Our guiding principle is simple: uniting purposeful investments, transformative partnerships, and a cultivated energy ecosystem to affect demonstrable impact and change.

Technical innovation for impact

In the face of a pressing need for accelerated energy transitions, Gastech emerges as a transformative forum to convene global visionaries and innovators to evolve strategies, embrace climate technologies to deliver secure, sustainable and affordable energy to the world.

CEPCA

CANADIAN EMERGENCY PREPAREDNESS
AND CLIMATE ADAPTATION EXPO

24 - 26 September 2024 | Ottawa, Canada

As the frequency and intensity of natural hazards across Canada increases the importance of creating a national event that promotes and builds resilience for a systematic, evidence-based, all-hazards approach to emergency management. The launch of the Canadian Emergency Preparedness and Climate Adaptation Convention (CEPCA), showcases the commitment of government, companies, and communities to increase disaster risk awareness, preparedness, readiness, and response to manage disasters and aftereffects.

CEPCA will focus on themes that address the challenges and opportunities related to climate change and its impact on emergency preparedness.

These themes will aim to bring together experts, practitioners, Indigenous leaders and policymakers to share knowledge, strategies, and solutions.

8 - 9 April 2025 | Houston, USA

The Americas Energy Summit & Exhibition will be held in Houston, Texas on 8-9 April 2025.

The event will be a hub for pivotal discussions concerning the future of energy, and a dynamic platform where thought leaders and innovators from the LNG, gas, and hydrogen value chains can come together to exchange ideas. It is a catalyst for international investments, showcasing the abundant natural gas resources present in the Americas.

The US plays a crucial role in ensuring the security of the global energy supply as the largest LNG exporter in the world. The conference and exhibition will play host to over 2,000+ attendees from 50 countries over four days to drive industry transformation.

Canadian Hydrogen Convention

23 - 25 April 2025 | Edmonton, Canada

As the largest event in Canada showcasing hydrogen as a key enabler to reach net-zero emissions by 2050, the Canadian Hydrogen Convention is the only annual meeting place for energy executives, government officials and Indigenous leaders to convene to build Canada's low-carbon energy future. This must-attend show will offer a unique perspective for the entire Canadian supply chain to discuss innovations and solutions for low-carbon hydrogen production, storage, utilization, and hydrogen's future as a key fuel.

Join 100+ exhibiting companies, 200+ expert speakers, 2,500+ conference delegates and over 8,000+ engaged attendees who are pioneering the development of hydrogen products and solutions to diversify Canada's energy policies and infrastructure.

CANADA GAS
EXHIBITION & CONFERENCE
LNG | Hydrogen | Bunkering | Marine Logistics

6 - 8 May 2025 | Vancouver, Canada

The Canada Gas Exhibition & Conference, taking place in Vancouver on 6 - 8 May 2025, will position Canada as an LNG export ready energy provider while accelerating our path to net zero fostering international and domestic economic security and empowering indigenous communities.

Canada stands firmly as a symbol of stability and environmental responsibility, prepared to play a substantial role in supporting international energy security. With LNG Canada's near completion and Cedar LNG's environmental certification, our future appears promising, despite the challenges. Simultaneously, we're propelling ourselves toward a hydrogen-powered future, which is pivotal in achieving our net-zero ambitions. As one of the world's largest hydrogen producers, Canada's ascent as an energy giant is undeniably on the horizon.

At this event, exclusively dedicated to the gas industry, you will discover how Canada, the fifth-largest natural gas producer and the sixth-largest exporter globally, is committed to supplying ethical and clean gas.

13 - 14 May 2025 | California, USA

The California Hydrogen Convention will bring together leaders from government, industry, labor unions, national labs, NGOs, and more to jump start the market for renewable hydrogen and establish a powerful ecosystem that aims to reduce pollution and act as a catalyst for addressing climate change.

Featuring an exhibition highlighting the latest technologies and services, alongside an industry-leading strategic conference, in-depth technical sessions, and workshops, this event will serve as a platform for expediting the path to achieve the state's aggressive climate goals. Simultaneously, it will foster partnerships and facilitate business development for companies and organizations involved in hydrogen projects, policymaking and driving the industry forward.

GLOBAL ENERGY SHOW

EXHIBITION & CONFERENCE CANADA

10 - 12 June 2025 | Calgary, Canada

The Global Energy Show Canada is the largest B2B exhibition and conference engaging with industry buyers and sellers, stakeholders and partners, CEOs and young professionals together to share knowledge and fuel innovation in the ever-changing energy landscape.

Hosted on 10 - 12 June 2025 the Global Energy Show Canada will be inclusive to all energy systems, including features on the exhibition floor and conference in oil sands, hydrogen, wind, solar, petrochemicals, gas and LNG, electrification and nuclear. As no single source of energy can meet the increased global energy demand, the Global Energy Show is where Canada demonstrates its vision and leadership by bringing the right people together to meet global challenges with real-world solutions.

Together at the Global Energy Show Canada in 2025, energy professionals will come together to lead the path of meeting energy demand, discussing energy transition, showcasing technology and innovation, and discovering the role of all energy sources in the greater energy system.

ENERGY CLUBS

أديبك EC
نادي الشرق الأوسط
East Energy Club

CONNECTING THE ENERGY INDUSTRY'S ELITE

dmg events' global Energy Clubs have been welcoming the energy industry's elite since 2012, providing premium hospitality and amenities, alongside unparalleled event programmes.

These invitation-only Energy Clubs provide an exclusive platform for members to meet, exchange knowledge, network and share ideas with

fellow industry leaders including government officials, policymakers, C-level executives, academia, and innovators.

The Energy Club meeting suites are also available for corporate sponsorship on a first-come-first-served basis, for those requiring a more formal, private meeting space.

CONNECTION

With so many distinguished members gathered under one roof for a few days' worth of high-volume business discussions, each of dmG events' Global Energy Clubs are designed to provide the ideal environment for building successful business partnerships.

INFLUENCE

A high-profile and exclusive environment where members can engage in business-critical conversations that can lead to future growth and influence industry trends in an evolving energy landscape.

COMMUNICATION

With members including dignitaries, ministers, CEOs, global leaders and executive management from around the world, Energy Club's offer the ultimate platform to connect with like-minded peers.

POWERFUL CLUB MEMBERSHIPS THAT CROSS CONTINENTS

MEMBER BENEFITS

- Access to the business-focused lounge with 5-star hospitality and features.
- Opportunity to be invited to the coveted Leadership Roundtables
- Opportunity to host one-to-one meetings in a private setting.
- VIP concierge services.
- Chance to network and exchange knowledge and ideas with fellow energy industry leaders, innovators, and policymakers.

MEMBERSHIP CRITERIA

The invitation-only Energy Clubs are specifically intended to offer exclusivity and privacy for the industry's most senior executives and influential individuals. Members are required to meet the indicated criteria for job titles and organisation type.

JOB TITLES

Minister, Ambassador, Chairman, Chief Executive Officer, Chief Financial Officer, President, Regional Director, Managing Director, Partner, Senior Executive, Senior Vice President - Supply Chain/Energy, Chief Operations Officer, Director General, General Manager, Country Manager, Technology and Digital Lead.

ORGANISATION TYPES

Governments, Embassies/ Consulates, National Oil Companies, International Oil Companies, Energy Companies, Utility and Multi-National Power Companies, EPC Contractors, Service Companies, Technology Companies, Investment Banks, Private Equity Firms, Law Firms, Consultancies and Think Tanks.

ADIPEC LEADERSHIP ROUNDTABLES

Comprised of an invitation-only cohort of speakers, the roundtables consist of decision-makers who are spearheading the evolution of a responsible energy industry. Their collective efforts facilitate meaningful dialogue and collaboration on pioneering solutions, steering global progress toward a more secure, affordable and sustainable energy future.

In an exclusive and intimate setting, the Leadership Roundtables serve as the cornerstone of ADIPEC, convening the brightest minds and most influential leaders from across the energy ecosystem to drive forward the commitments and ambitions outlined at COP28.

Sitting at the heart of the event, these discussions bring together a distinguished group of leaders, policymakers, ministers and innovative thinkers, fostering open, impactful and action-oriented discussions aimed at accelerating the energy transition. Each conversation is enriched by specialised expertise and diverse perspectives, transforming discussions into tangible actions, insights into meaningful impacts, and commitments into reality.

► adipec.com/leadership-roundtables

GASTECH LEADERSHIP ROUNDTABLES

The Leadership Roundtables are an integral part of the Gastech leadership agenda, bringing together the energy sector's most distinguished thought leaders, strategists, and policymakers. It facilitates important discussions about the future of energy production, supply and use, while providing excellent networking opportunities which empower attendees to build high-level industry connections.

The aim of the roundtables is to create productive discussions with tangible takeaways and reports. Participants benefit from making extensive, high-level industry connections with unique networking and discussion opportunities.

The roundtable is by invitation only and welcomes up to 30 high-level participants for each topic, including Energy Ministers, policymakers, industry CEOs, C-suite executives, and noted industry analysts and commentators.

AWARDS

CONGRATULATIONS
TO THE ADIPEC AWARDS

CONGRATULATIONS

AWARDS 2023 WINNERS

AWARDS

dmg events is proud to honour the people, projects and power of the global energy industry through international awards and recognition.

The ADIPEC Awards, a coveted honour in the energy industry, are designed to recognise the fresh, innovative perspectives needed to tackle the world's most pressing energy challenges. The award categories honour those helping to shape the energy systems vital to everyday lives and livelihoods, their efforts contributing to making energy more accessible, affordable, secure and sustainable.

Evaluated under robust judging criteria by an enriched jury of global experts in decarbonisation, technology, finance and climate change, the winners will be announced at an exclusive ceremony held on 4 November 2024.

adipecawards.com

The Global Energy Show Canada Awards, now in its 10th year, shines a spotlight on excellence in the energy industry in Canada and around the world. The Awards recognizes and celebrates leaders, innovators and trail blazers accomplishments in 8 categories over the last 12 months who have been at the forefront in leadership, innovation, sustainable solutions and promoting the healthy advancement of all areas of the energy sector.

The 10th edition of the Global Energy Show Canada Awards will take place in Canada's energy capital Calgary, Canada at the BMO Centre, Stampede Park. Nominees will be celebrated with winners announced in an exciting evening gala filled with entertainment, chef driven multi-course dinner and high-caliber networking at the opening cocktail reception prior to the dinner.

globalenergyshow.com/awards

In response to growing global emphasis on the industry's dedication to decarbonisation and energy transition, the EGYPTES Sustainability in Energy Awards tackle critical issues and highlight the increasing significance of Environmental, Social, and Governance (ESG), Corporate Social Responsibility (CSR), and Health, Safety, and Environment (HSE) within the industry.

EGYPES Energy Awards categories addressing sustainability in energy shine the spotlight on exceptional initiatives and ground-breaking efforts to propel the industry forward towards achieving net-zero agendas.

egyptes.com/awards

As the energy transition accelerates, fuelled by groundbreaking clean energy technologies, the global spotlight on talent strategy intensifies. This has increased pressure in the industry to recruit, retain, and upskill existing talent to bridge skill gaps, exacerbated by retiring professionals leaving the sector, digital transformation creating new roles, and talent drain to technology sectors.

Navigating the energy transition and attaining net zero targets by 2050 will be a generational challenge, with STEM millennial and Gen Z graduates of today, being the energy leaders of tomorrow. With this in mind, the sector is actively redefining itself to be an attractive career proposition for the next generation of talent. From creating flexible working environments which offer employees better work life balance to fostering a culture of purpose that aligns with their values.

egyptes.com/awards

The NOG Awards recognise exceptional achievements and contributions within Nigeria's energy industry. With categories such as Best Stand Award, Nigerian Content Contribution Award, Indigenous Company of the Year Award, Rising Star of the Year Award, Excellence Award, Women in Leadership of the Year Award, and Equality in Energy Award, the NOG Awards celebrate excellence, innovation, and diversity in the energy sector.

These prestigious awards honor outstanding individuals, companies, and initiatives that have made significant impacts and advancements in Nigeria's energy landscape.

nogenergyweek.com/nog-awards

The Americas Energy Awards recognise companies and individuals that have contributed to the development and future of the LNG, gas and hydrogen industries through either commercial or technological innovation.

americasenergysummit.com/awards

A key fixture in the LNG calendar, the World LNG Awards recognise companies and individuals who have contributed to the development and future of the LNG industry through either commercial or technological innovation. The Awards Evening offers an unrivalled opportunity to network with key decision makers and thought leaders within the global LNG industry.

worldlngsummit.com/world-lng-awards

The Carbon Capture Canada Awards shines a spotlight on excellence in the CCUS industry here in Canada and around the world. The Awards recognizes and celebrates leaders, innovators and trail blazers accomplishments over the last 12 months in 8 categories who have been at the forefront in leadership, innovation, sustainable solutions and promoting the healthy advancement of the CCUS sector.

The second edition of the Carbon Capture Awards will take place on September 11, 2024, in Edmonton, Alberta, Canada at the Edmonton Convention Centre.

DIGITAL BUILDING S

CONSTRUCTION

A globally recognised brand with an international pedigree, The Big 5 portfolio has grown to become a leader in the construction industry events arena since it first launched 40 years ago. The portfolio of construction events has connected more than 100,000 global suppliers and buyers providing an exceptional opportunity to do business, network and learn.

COATINGS

The Coatings Group organises international coatings exhibitions and conferences in the fast moving Asian, Middle Eastern, Latin American and African markets. The events are designed to promote the latest coatings technologies for the region's environmental, manufacturing and industrial needs.

FOOD & HOSPITALITY

Our Food and Hospitality portfolio offers a world-class platform for suppliers in the hospitality and food industry to connect with the biggest brands across hotels, restaurants, F&B, and leisure resorts worldwide.

The hospitality series of events includes The Hotel Show Dubai, which has been running for over 20 years and is the Middle East's longest-running event for professionals to network and do business. To complement The Hotel Show Dubai, we've created The Leisure Show, the region's only event dedicated to the rapidly growing leisure market.

Additionally, our F&B series of events operate under a joint venture company, dmG & KAOUN Ltd, with KAOUN International, the international event organizing company of the Dubai World Trade Centre (DWTC). This collaboration aims to organize market-leading international events in high-growth geographies based on customer demand. This partnership has seen the success of the Hotel and Hospitality Expo in both Saudi Arabia and Africa.

dmG & KAOUN are strategically using their international infrastructure and established brands, such as GULFOOD Global, the world's largest F&B event hosted in Dubai, and The Hotel Show hosted in Dubai, to develop a synergistic portfolio of food, hotel, and hospitality events. This approach is designed to optimize the value proposition for our customers while driving business growth in these and other key sectors.

THE HOTEL SHOW

LEISURE SHOW

INTERIORS

Extending its reach out of the Middle East, dmg events entered into joint venture with Fiera Milano. The venture has seen the success and launch of FIND - Design Fair Asia which is deepening its roots in Singapore.

OTHERS

Through our acquisition strategy we have acquired a suite of successful events across a number of industries including transport, manufacturing, mining and power, food and beverage. Market demand has fueled growth and these long-established events continue to be a gathering point for their industries, drawing loyal participants regionally and afar.
